

# Welders360

Simplifying the testing and licensing process

Available as an Enterprise client server LAN/WAN/VPN system, 100% Web based or Web based hosted by Basebridge.com.

## Standard features

- Copy and or transfer existing tests
- Contact and license information of welders, brazers, welder operators and brazing operators
- Historical test results for every test taken by an individual
- Testing forms (based on current ASME standards)
- Customizable catalogue of standard test scenarios (Templates)
- Invoicing and receipts
- License / ticket printing
- Financial Summary Report
- Test Detail Report
- Material Planning Report
- Test Summary Report
- Although the system is based on current ASME IX standards, the module can be modified to suit the unique requirements of any jurisdiction
- The user interface is designed to capture information in an efficient manner while still maintaining data integrity
- Designed specifically for organizations tasked with enforcing code compliance for public safety
- Full system customization available
